

A close-up photograph of a white birthday cake decorated with chocolate swirls. Three lit candles are placed on top, forming the number '100'. The candles are blue and white striped. The background is dark.

TCP/IP form

The Initial ARPANET-1969

The map shows the initial ARPANET connections in 1969. Red lines indicate the network links between four nodes: SRI (Stanford Research Institute), UC Santa Barbara, UCLA (University of California, Los Angeles), and the University of Utah. SRI is connected to UC Santa Barbara, UCLA, and the University of Utah. UC Santa Barbara is connected to UCLA. UCLA is connected to the University of Utah. The map also shows the geographical locations of these institutions in the western United States.
